SUMMARY

Motivated and dedicated front-end developer with a passion for creating innovative and efficient user interfaces. Proficient in front-end technologies, with a focus on developing scalable and responsive web applications. Committed to problem-solving, continuous learning, and professional growth to stay updated with industry trends. Eager to contribute to cutting-edge projects and deliver high-quality web solutions.

KEY COMPETENCIES

HTML	React.Js	MongoDB	Figma	Python
CSS	Express.Js	MySQL	Canva	Github
JavaScript	Node.Js	UI/UX	Tailwind CSS	Front-end Web Development

PROJECTS

Portfolio Website   **Project Demo**

Developed a personal portfolio website utilizing HTML, CSS, JavaScript, and React.js to effectively showcase a range of projects and skills. The website features a responsive design to ensure an optimal user experience across various devices and screen sizes.

Password Manager   **Project Demo**

Developed a single-page password manager website using HTML, CSS, and JavaScript to manage and display URL, username, and password entries. The website allows users to input and store website URLs, usernames, and passwords through an intuitive form. The entries are stored locally in the browser's console for the duration of the session.

Tic-Tac-Toe Game   **Project Demo**

Developed a Tic-Tac-Toe game using React.js, featuring a interactive user interface. Implemented the game logic to handle player turns, check for win conditions, and display the game board.

Password Vault   **Project Demo**

Developed a password vault in Python, integrating data storage with MySQL. The application securely manages the user credentials. Implemented functionalities for adding, retrieving, and deleting stored passwords. Utilized MySQL for reliable and structured data storage.

EDUCATION

Bachelor of Technology
Information Technology   CGPA : 6.89 / 10   2021-25

12th CBSE   Percentage : 70.20 / 100   2021

10th CBSE   CGPA : 9.60 / 10   2017
